

# *CORPORATE PROFILE*

# HISTORY

Alligator Automation is founded by Mr. Srinivas Choudhary & Mr. Krunal Kantale in the year 2008.

The First Robot build by them during their graduation days was an amphibian robot which could work in water as well as on land.

They named it ***ALLIGATOR***

This is the history behind the name Alligator

**“BRING PRIDE TO INDIA BY  
BUILDING INNOVATIVE  
PACKAGING TECHNOLOGY FOR  
THE GLOBE”**

## Our Mission

“Year on year profitable growth through superior customer satisfaction and innovation”

“Focused sales efforts to build international market segment”

“Investing efforts in Design house so as it continues to lead the way towards developing new product lines”

“Diversification of product lines to expand our technical capabilities in different sectors”

“For our employees, our business partners and the communities in which we operate, we will also strive to ensure opportunities for personal growth, improved co-working and shared life enrichment”
